Local COVID-2019 Updates:

- The 2019 Novel Coronavirus (COVID-2019) is a rapidly evolving situation. Members of the public are urged to keep up to date by visiting trusted public health resources.
- The Bernards Township Health Department is closely monitoring any local suspected cases and keeping updated on the most current information from trusted sources such as the NJDOH and CDC.
- As of 3/16 the Health Department is closed to visitors – they are open for phone calls and emails.
- For current NJ numbers, please visit https://www.nj.gov/health/cd/topics/covid2019_dashboard.shtml

CDC Recommendations – Spread Facts Not Fear

- **What is Social Distancing?** Remaining out of congregate settings, avoiding mass gatherings, and maintaining distance. Although schools, businesses, and restaurants may close, it does not mean it’s time to host parties, sleepovers, or other gatherings. This is a behavioral change.
- **What is Quarantine/Self-Quarantine?** Quarantining is separating and restricting the movement of people who were exposed to a contagious disease to see if they become sick. Self-quarantine means the individual suspects they may have been exposed and have made the decision to restrict themselves. This involves locational change.
- **What is Isolation?** Separating and restricting movement of people who are sick with a contagious disease from people who are not sick. This is also a locational change.

What does “Flattening the Curve” Mean?

- Think of the curve representing illness and its impact on the healthcare system.
- When a disease emerges in a population and it spreads quickly, that curve will spike quickly and put stress on the healthcare system immediately.
- By implementing social distancing, the curve will not “spike” as quickly and have as heavy an impact on our hospitals, doctors, and other resources.
- Social distancing helps everyone – less people getting sick, and less pressure on healthcare.

The Bernards Township Health Department is the contractual health agency serving Bernards Township, Bernardsville Borough, Chester Borough, Long Hill Township, Mendham Borough, and Peapack and Gladstone Borough. For update links and more information, visit: http://www.bernardshealth.org

Testing for COVID-19
- As of 3/16/20
  - Two FEMA testing sites are projected to open at Bergen County Community College and PNC Bank Arts Center in Monmouth County. More information to follow.
  - Most doctor’s offices are not testing on site. Some doctors may collect samples and send to an approved laboratory. **If you are feeling unwell, call ahead to your healthcare provider.**
  - Hospitals are currently testing for COVID-19. **Call ahead to get more information. Do not just show up to the ER.**
  - For more information or testing - **visit the CDC website.**
